June 28, 2016 Kamloops Airport Apron Rehabilitation Project

The Kamloops Airport Ltd. and Kamloops Airport Authority Society propose to undertake the phased rehabilitation of an abandoned portion of the main apron. The apron rehabilitation will improve access and operational safety of medevac operations, air cargo and general aviation activity as well as improve safety and security of scheduled air carriers and passengers using the air terminal facilities.

The total estimated cost for the project is $3.2 million with $2.6 million coming from the Province of BC through the BC Air Access Program and the balance from the Kamloops Airport Authority Society capital reserve fund.

The project will be completed over 2 construction seasons beginning in August 2016. The second phase will start in April 2017 and should be complete by early June 2017.

In general, the work will consist of the following:

- Construction of dedicated medevac and cargo vehicle access route
    - Access to be developed off Airport Road
    - Automatic, secure vehicle access
    - Separate, secure pedestrian access
- Construction of two (2) helipads
- Apron Rehabilitation
    - West Apron Reconstruction (2016)
    - East Apron Reconstruction (2017)
- Introduction of LED Apron Flood Lighting
