

## KAMLOOPS AIRPORT

### MEDIA RELEASE

**July 9, 2014**

Kamloops Airport announces the traveler numbers for the month of June and year-to-date as compared to the same period in the previous year:

	2013	2014	Change
Monthly Travelers	21,955	23,475	6.9%
Year-To-Date Travelers	142,597	157,068	9.2%

June showed good growth in travelers in the northern workers and leisure sectors. Kamloops continues to supply a growing number of people to work in resource related industries in the Northern Alberta and Northeastern BC regions. The work by Tourism Kamloops also continues to draw both tourism visitors and the “visiting friends and relatives” groups to our community.

The following aircraft movements were recorded in June as compared to the same period in the previous year:

	2013	2014	Change
IFR	977	1,024	4.8 %
VFR	<u>1,340</u>	<u>1,467</u>	<u>9.4 %</u>
Total	2,317	2,491	7.5 %

Aircraft activity is also generally stable during this period. Moderate increases can be attributed to increased activity in the resource sector.

Visitors to the airport will notice construction at the entrance business area. This is the new Executive Flight Center fuel and service facility. This addition will strengthen the position of the airport with competitive fuel prices and customer service for charter and corporate flight operations.
