In addition to continued increases business and industry related travel, leisure travel both to and from Kamloops contributed to the growth.

The following aircraft movements were recorded in October as compared to the same period in the previous year:

	2013	2014	Change
IFR	1,145	1,096	-0.05 %
VFR	511	901	76 %
Year-To-Date Movements	24,604	25,979	1 %

Fluctuations in aircraft movement activity are normal and can be attributed to many factors including weather, firefighting and corporate charter activity.

With Christmas travel almost upon us, people traveling need to know that they should be allowing additional time for check in and security screening. Please arrive at least 1 hour before your flight. Gifts should not be wrapped in case they need to be inspected. Wrap them at your destination. Airports across North America will be crowded so remember to bring along a supply of patience if you are flying this year.
