

KAMLOOPS AIRPORT

MEDIA RELEASE

January 12, 2016

Kamloops Airport announces the traveler numbers for the month of December as compared to the same period in the previous year. Also included are year-end 2015 numbers.

	2014	2015	Change
Monthly Travelers	29,624	32,221	8%
Year-End Travelers	313,093	324,042	3.4%

As in previous months, tourism travel continued to lead the way in December due to the lower Canadian dollar as compared to the US dollar. We have seen increases in both domestic travel and US origin travel. All routes to and from Kamloops are performing well and all are contributing to the increase in year over year numbers of travelers.

The following aircraft movements were recorded in November as compared to the same period in the previous year:

	Dec 2014	Dec 2015	Change		2014	2015	Change
IFR	1,210	1,181	-2%		13,508	13,722	even
VFR	847	591	-30%		14,528	15,439	6%

The Instrument Flight Rules (IFR) remained relatively even in December and indeed over the full year. The poor weather in December resulted in a falloff in the number of Visual Flight Rules (VFR) flights but the yearly total saw an increase of 6%.
