

KAMLOOPS AIRPORT

MEDIA RELEASE

June 16, 2016

Kamloops Airport announces the traveler numbers for the month of May as compared to the same period in the previous year.

| | 2015 | 2016 | Change |
|------------------------|-------------|-------------|---------------|
| Monthly Travelers | 24,112 | 23,292 | -3.5% |
| Year-To Date Travelers | 133,488 | 139,876 | 4.6% |

The month of May saw a fall off of the Northern Alberta market as the economic consequences are seen from both the wildfire in Fort McMurray and the downturn in the oil and gas sector. This is expected to correct over the summer as reconstruction demands skilled labor from outside the Northern Alberta market and we should see a return of commuting workers to that region.

The following aircraft movements were recorded in May as compared to the same period in the previous year:

| | 2015 | 2016 | Change |
|-----|-------------|-------------|---------------|
| IFR | 1,084 | 988 | -9% |
| VFR | 1,866 | 1,740 | -7% |

The reduced number of flights over May has not been attributed anything in particular. It appears to be simply a seasonal adjustment.
