Kamloops Airport has had an amazing year of growth in 2018, surpassing 2017 by 10.6% and marking our best year for passenger numbers in the history of the airport.

December 2018 was the best month on record for the Kamloops Airport with 35,132 passengers, and October through December marked the highest 4th quarter ever.

We anticipate continued growth in 2019, and look forward to the return of Air Canada Rouge direct seasonal service to Toronto in June.

Congratulations to Central Mountain Air, WestJet, Air Canada and the entire YKA team on this amazing milestone at Kamloops Airport.
