

**MEDIA RELEASE****October 17, 2025**

Kamloops Airport announces traveler numbers for Q3 2025, compared to the same period from the previous year.

|                     | 2024          | 2025          | Change        |
|---------------------|---------------|---------------|---------------|
| <b>Q3 Travelers</b> | <b>70,638</b> | <b>68,960</b> | <b>- 2.4%</b> |
| <b>July</b>         | <b>23,374</b> | <b>22,117</b> | <b>- 5.6%</b> |
| <b>Aug</b>          | <b>23,579</b> | <b>23,441</b> | <b>- 0.6%</b> |
| <b>Sept</b>         | <b>23,685</b> | <b>23,402</b> | <b>- 1.2%</b> |

The year-over-year decrease in passenger volumes during the first half of the year was anticipated in our forecast, reflecting planned reductions in route frequencies through June. Daily commercial flight activity rebounded to near last year's levels in July. Although overall volumes held steady in Q3 the trend is moving in a positive direction as we head into the fourth quarter.

The additional summer service to Edmonton with WestJet in July and August was encouraging, and we remain committed to working closely with all our airline partners to increase frequencies on existing routes and explore sustainable new air service opportunities for our region.
